

The Radstadt guide on your smartphone

Visitors of Radstadt have the possibility for a free guided tour around our town by smartphone also in English. With the free „Hearonymus App“, your smartphone becomes a modern audio guide for visiting our historical places. How to get the free „Hearonymus“ App:

- ✓ Simply download the free „Hearonymus“ App to your smartphone – either looking for it in the App Store or Google play Store or scanning the QR code above.
- ✓ Search for „Radstadt“
- ✓ Plug the headphone in the socket of your smartphone (of course it also works out without headphones)

Starting at the city square, the audio guide will take you on a tour of 20 stations through the historical Radstadt. The respective location is also displayed to you by picture and plan, so that you always know where you are. The individual chapters can be called up either from the list or the map (GPS).
